Letter of Recommendation

To whom it may concern

I am pleased to write this letter of recommendation for **Shreya Tyagi**.

Shreya worked for me in the Software Department at Gautam Buddha University for 3 months. She began here as **Software Developer Intern** and continued to serve with increasing skills in that capacity.

During Shreya's tenure, She was very goal oriented, always easygoing as well as a good team player. Shreya was keenly devoted to the work, but being a real people person, She was also enjoyable to be around.

Shreya demonstrated from early in tenure that She was an exceptional software engineer intern. She was well organized and thrived under adversity. Almost without exception, She put the team first; feeling as I do that the key to good working is satisfied team members. Although these are very strong qualities that Shreya possesses, his biggest strength to the software department was the ability to be agile in working with technologies.

In closing, let me say I have no hesitation in recommending **Shreya Tyagi** for any position pertaining to software development. I feel confident that he would be an asset to your organization.

Mrs. Pallavi Upadhaya
Techinal Suprintendent

Gautam Buddha University, Greater Noida
